SPECIAL DISPATCHES TO THE OREGONIAN

EASTERN DATES TO OCTOBER 24

EASTERN STATES.

Still Increasing.

New York, Oct 24 —The horse disease is spreading rapidly It is calculated that there are from 8,000 to 10,000 horses in all in various stages of the malady. It is feared there will be serious interruption to travel and traffic. There were hundreds of infected horses on the streets yesterday About 150 cars have been taken off from different street car lines. Some forty stages were withdrawn yesterday. Alarming stories are circulated that the disease has been transmitted to men, but there appears to be no foundation for the rumors. Many stablemen think the disease will spread for a few days and then decline and disappear entirely. Fatal cases are yet reported

Chicago, Oct 24 —The rapid spread of the Canadian horse disease and its appearance here caused serious apprehensions as to the effect on business of all kinds, should it become general The number of horses employed in this city at present is necessarily very large, and should the disease spread here generally, the effect will be very disastrous. Owners of large stables have already taken precautionary measures to prevent its appearance among their horses, fumigating, disinfecting stables and taking extra care of horses. The veterinary surgeon of the American Express Company has gone to Detroit and Toronto to investigate the best method of treatment of the disease.

Newburg, N. Y., Oct. 22 —The horse disease has appeared here There has been three deaths

Rochester, N Y , Oct 24 —The horse disease is worse than ever. There are no horses in the streets. Storekeepers are delivering goods in hand carts, and work on buildings is suspended The horses attacked took the disease from thirteen to thirty days before it was discovered But few fatal cases are reported. This morning the disease appeared among canal horses. There is great difficulty in procuring conveyances for funerals.

FROM THE CAPITAL

[FROM OUR REGULAR CORRESPONDENT]

Salem, Oct 24, 1872.

The seventh regular biennial session of the Oregon Legislative Assembly is no more It died last night at midnight What shall we say of it? That it has been a decided improvement on some of its predecessors in many respects is as much as need be said Its deeds are history. Let the people judge.

SIGNS OF DISSOLUTION

were noticed for the first time late Tuesday night The members from distant counties saluted the Sergeant-at-Arms with endless petitions for legal cap, or red tape with which to tie up their numberless packages Some had lost their inkstands and came to have them replaced. These are infallible signs to one at all conversant with the customs of our Assemblymen. Early yesterday morning carpetbags were brought into requisition. The sun had just risen from behind the snow-peaks of the Cascades,

"And like a lobster boiled, the morn
From black to red began to turn,"

when five and forty Representatives, slow paced and sad, their features haggard with a night's unrest, drew up before the iron doors of the State House And each of the five and forty held in his hand valise or carpetbag, save two who had brought with them boxes of goodly size And there they clamored for entrance, besieging the doors like Titans of old Your correspondent interviewed one of these unfortunate men He said he had sat up all night to get his pick of two bit penholders on the Speaker's desk Cautioning him against the fearful vice of covetousness, your correspondent passed through the doors which by this time had yielded to the importunate crowd. In the Senate Chamber all was quiet. In the committee room I found the "foremost man in the State" rehearsing his little valedictory At my approach he fell upon his knees. With weak eyes and uplifted hands he sought to coax the liturgy from between his teeth, but "Amen" stuck in his throat. I could hear one little sentence as I passed out, cogitating, "Darn the Lock Bill" That was all. It was a sight I never can forget the "best general debater" of Oregon practicing attitudes before the mirror of an enormous self-complacency. Within the Hall of the House all was bustle and animation. Verily it was a goodly sight to see these Legislators, erst so sombre faced and grave, tripping with fairy-like step from desk to desk, their faces wreathed with the most expansive of smiles.

HE NEVER SMILED AGAIN.

One man whose audacity has oftimes astonished the decorous house, rummaged with sacrilegious hands the desks of the reporters. Evidently he had lost something Turning from his fruitless task I caught a glimpse of his pallid features They were twitching convulsively. He looked despairingly toward heaven, then with one wild whoop dashed through the doorway into the presence of his maker. He hasn't been seen since He was a Democrat, and could be spared. We hope he is not uncomfortably warm or thirsty.

THE MORNING SESSION

came on apace. A rumor that the long delayed Joint Convention would be held at 11 o'clock, filled the House with an impatient crowd. The hour of 10 came. Some member introduced a resolution to adjourn sine die at 11 A. M , which called forth angry remonstrance from the lobby, accompanied by sundry calisthenics suggestive of addled eggs and decaying vegetation. The still, small vox populi again got the best of it, and the resolution was unanimously voted down.

"The champion of Marion" moved that the two Houses meet in Joint Convention at 11 o'clock, and supported his motion in a brief speech. For elegant diction, refined wit and chaste, classical allusions, his effort was a paragon of excellence The rare pathos with which the gentleman depicted the lowly estate of his candidates for Capitol Commissioners brought tears to eyes that were unused to weep. The chief of apostles of the "Saints" hovered upon the edge of the lobby groaning incessantly, and when the resolution was defeated by a large vote he refused to be comforted. We thought of Edmund Burke's figure—"iron tears coursing down Pluto's cheeks." Meanwhile

THE SENATE

stalked in stern tumult up and down their narrow hall The Senate was indignant, the House had wantonly insulted its dignity, and in fierce revenge the Senate resolved to heed no more messages from the House. The hot, young blood of the Senator from Umatilla rose in fierce defiance of the "co-ordinate branch" The intelligence of the action of the Senate was received in the House with fierce imprecations That body must needs reciprocate; so the House picked up the gauntlet and resolved to consider no more Senate business—a resolution which was very wisely reconsidered afterwards. The hands on the dial slowly circled round to 12, and still the Senate showed no signs of yielding. So the House very sensibly adjourned to dinner.

"NO QUORUM PRESENT,"

was the utterance of the Speaker at roll call in the afternoon. The Democratic side was deserted. A call of the House was ordered. The agile Sergeant-at Arms found enough to complete the quorum; but the Democratic members had a bad trick of leaving the House as soon as the call was dispensed with. The afternoon wore on. It was evident that the seventh regular session was in its death throes. But still by dint of severe vocal exertion the "best general debater" emulous of the fame of Casabianca, kept the anti Lockists in their seats

It was a ludicrous sight this handful of men peeping above the general wreck The Republican Lockists were in their seats. (N. B —That was what worried the "foremost man") The session passed without the transaction of any important business Some of the Democratic members offered to return if the Republicans would promise to support the Senate joint resolution empowering the Governor to appoint Capitol Commissioners in the event that the Legislature should fail to elect. With dogged obstinacy the Marion county delegation refused to accede to the offer It seems to me this policy was suicidal, since the Governor will appoint them, anyway, notwithstanding the appropriation bill makes no provision for filling vacancies by Executive appointment.

After a few hours' session the House adjourned to 7 30 P. M.

THE EVENING SESSION

was a repetition of the afternoon's failure No Democrats present. A call of the House was ordered, but the Sergeant-at-Arms after an hour's search reported that the absent members could not be found. So the House amused itself with the fierce invective of garrulous , until 9 o'clock, when they adjourned to 11 30.

But the Third House was not to be so easily disappointed. So Gen. E L. Applegate took the Speaker's chair; the seats on the floor were filled with real and bogus Representatives—some of the latter very good imitations of the former,—lawyers and editors, and for an hour and a half we were in constant danger of exploding with merriment. The quaint rulings of the Chair coupled with the vigorous expletives and raw Anglo-Saxon of the Representative from Baker, furnished excellent sport.

THE LAST GASP.

By the time the House was again called to order it had been ascertained that the Democracy would never, never clasp hands across the chasm In silence the House sat for fifteen minutes, at the close of which the "foremost man and best general debater" arose and with one long, loud curse, which would have shocked the Taylor street congregation, delivered himself of a long and incoherent denunciation of His Excellency, the Governor. He charged His Excellency with being the chief adviser and accomplice in a conspiracy to break up the House. The speech was ill-timed, very, and so spoken of universally. It was not in accord with the belief of most of those present. After this tirade, a Committee was appointed to wait on His Excellency and inform him that the two Houses were ready to adjourn In a short time the committee returned bearing the congratulations of His Excellency, expressed in polite and courteous phrase—in marked contrast with the intemperate speech of the Representative alluded to.

At 12 P. M. the Speaker rose, and in a brief address returned his thanks to the members for their kind and courteous support, after which he pronounced the Seventh Regular Session of the Oregon Legislative Assembly

ADJOURNED SINE DIE.

With the departure of the Assembly to their homes, the pleasant labors of your correspondent also end. He has endeavored during his brief term to please—sometimes to instruct—the readers of the OREGONIAN, and he cannot leave them now without begging their forbearance for the many shortcomings and irregularities of the "Regular Correspondent." To each and all a kind adieu!

THE TERRITORIES.

The young men of Tacoma, W. T, have organized a Literary Society.

The first Angora goat ever in Olympia reached that place last Monday and was publicly exhibited on the Plaza.

The boys in Olympia now spend their leisure time practicing gymnastics in the back yards. They all expect to become circus performers.

One hundred and thirty head of fat cattle from Yakima, and 300 head of sheep from Oregon, arrived at Seattle this week. They will furnish beef steaks and mutton chops enough to last the Seattleites for several days.

Capt. Birnie's surveying party are still at work along the beach about ten miles from Seattle. They have yet about six miles more of the line to locate, which will take some ten days, when they will discontinue work and return to Kalama to disband for the winter.

Idaho Territory has been redistricted by the Supreme Court. Judge Whitson is assigned to the First District, composed of Nez Perces, Shoshone and Idaho counties, Judge Noggle to the Second, comprising Ada, Boise and Alturas, and Judge Hollister to the Third, embracing Owyhee, Oneida and Lemhi counties

A gentleman writing from Walla Walla says: "Money is very scarce compared to other seasons, very little freight passing through to the upper country. Very seldom do we see the long, dusty train of mules that are employed to carry the necessaries of life through the rough and rugged mountain trail into the miner's camp. Neither do we see the same number of freighters' wagons, with their dull, heavy roll along the stony street, as in seasons past."

From the Seattle Intelligencer: The barkentine Constitution cleared from Port Discovery for San Francisco on the 15th with 250,000 feet of lumber. The bark Glimpse, for Santa Barbara, sailed from Port Ludlow on the 13th, the barks Oregon, from Seabeck, the Vidette, from Port Madison; the Oak Hill, from Port Blakeley, sailed for San Francisco on the 17th. The barkentine Grace Roberts, for Seattle, the Scotland, for Port Blakely, and Tidal Wave, for Port Madison, have arrived.

A Walla Walla correspondent of the Puget Sound Dispatch says. "The Walla Walla and Columbia river road is in statu quo, and for want of the necessary timbers for ties, stringers, etc , the Company is put back about a year in their work. The Company were bringing their ties and timbers from the Clearwater and Yakima rivers, and must have been cutting on Government land, as their booms were seized and sold. The sand composing the road bed is being blown in every direction by the high winds which frequently visit us, and if something is not soon done, there will be but a trace of the original bed."

The Idaho World, a Democratic paper, pays the following compliment to Judge Whitson, formerly of this State "Hon W. C. Whitson, Associate Justice of the Supreme Court, leaves by to day's stage for Northern Idaho Judge Whitson has won for himself the respect and esteem of the people of this section of Idaho regardless of party, by the able and impartial manner in which he has discharged the duties of his office as presiding Judge of this Judicial District. The people here have the utmost confidence in his integrity and ability, and that he has given universal satisfaction as a Judge, it is only necessary to say that since he has been upon the bench in Idaho—now more than two years—not a single appeal has been taken from his decision to the Supreme Court of the Territory."

FRIDAY MORNING, OCTOBER 2[illegible] 1872

More of Greeley's Record

It is with feelings rather of pain than of pleasure that we recall to the minds of our readers further evidence that the inconsistencies of Horace Greeley's political course are the result more of a wish to gain popularity and the power that popularity brings than of honest changes of sentiment. Weakness is a fault that cannot be overlooked in any man who aspires to the position of President of the United States but knavery is worse than a fault. Many Republicans remembering only the heavy blows administered to the Democracy in the days when the Republican organization was in need of assistance from any greater are now fain to believe that Mr Greeley's apostasy from the Republican faith is an error of the head and not of the heart, and that it is to be accounted for by considering his erratic nature. This is the charitable view of the case but it can scarcely be accepted as the rational one in the light of recent events. His whims have led him so invariably to do that which for the time appeared likely from his stand point to be in accordance with the sentiment by which he was surrounded or favorable to the success of his ambition, as to suggest to intelligent persons the inquiry whether there was not beneath his exterior of artless simplicity a vein of cunning—whether indeed he has not mastered that lightest art of deception the art of being artless. Certain it is, that he seldom, if ever, flies off upon one of his tangents, except when that seems most likely to promote his own aggrandisement. In April, 1861, when the whole North was ablaze with patriotic enthusiasm for the Union he said

We hold traitors responsible for the work upon which they have precipitated us and we warn them that they must abide the full penalty * * * The rebels of that State (Virginia) and Maryland may not flatter themselves that they can enter upon a war against the Government and afterwards return to quiet and peaceful homes. They choose to play the part of traitors and they must suffer the penalty. The worn out race of emasculated first families must give place to a hardier people, whose pioneers are now on their way to Washington, at this moment in regiments. An allotment of land in Virginia would be a fitting reward to the brave fellows who have gone to fight their country's battles

In May 1862 when the inactivity and indecision of McClellan had brought defeat upon our arms in many engagements, and the Democratic demand for peace on any terms appeared to be gaining ground on the public mind, his views underwent a radical change and he could write

And we have urged that, had the great mass of the Southern people really desired a dissolution of the Union, and been willing to exercise a reasonable patience their end might have been attained without devastation and carnage, for we with thousands more in the North would have done all in our power to incline our fellow citizens to defer to their request and *let them go in peace*

And again

What I demand is proof that the Southern people really desire separation from the Free States. Whenever assured that such is their settled wish, I shall joyfully co operate with them to secure the end they seek

* * * * * *

As to secession, I have said repeatedly, and here repeat that if the people of the Slave States or of the Cotton States alone really wish to get out of the Union I am in favor of letting them out, as soon as that result can be peacefully and constitutionally attained. But their case cannot be so urgent as to require that the President and his subordinates should perjure themselves in deference to its requirements. If they will only be patient, not rush to seizing Federal forts, arsenals, arms, and sub treasuries, but take first deliberately a fair vote by ballot of their own citizens, none being coerced nor intimidated and that vote should indicate a settled resolve to get out of the Union, I will do all I can to help them out at an early day.

And see his record upon the position which the rebels were to occupy in the new nation that was to come out of the war. Here is the Greeley of September, 1862

The people, whose Constitution and Union are at stake, will tolerate in their rulers anything necessary to preserve them. They will forgive them for doing almost any act tending to this end, but they will not excuse them for hesitation, timidity, blundering, nor especially for doing or not doing anything for fear of hurting or despoiling, or even exterminating southern traitors or of offending their secret coadjutors in the North and their open apologists in the Southern States

And here is the Greeley of 1872 who was then a candidate for President

I hope the time will come when the soldiers that fought with Lee and Johnston will occupy as proud a position in the hearts of the American people as the soldiers that fought under Grant and Sherman

Equally consistent have been Mr Greeley's opinions of the Democracy, the changes always coming just at the right time for his purposes. Here is his opinion of that party when he did not want their votes

If there were not a newspaper nor a common school in the country the Democratic party would be stronger than it is. Neither elementary instruction nor knowledge of transpiring events is necessary to teach the essential articles of the Democratic creed "Love rum and hate niggers." The less one learns and knows the more certain he is to "vote the regular ticket, from A to Izzard"

* * * * * *

A Democratic National triumph means a restoration to power of those who deserted their seats in Congress and their places under the last Democratic President to plunge the country into the red sea of secession and rebellion. Though you paint an inch thick, to this complexion you must come at last. The brain the heart the soul of the present Democratic party is the rebel element at the South, with its Northern allies and sympathizers

And here is what he thinks of them since he became the Democratic nominee for Presidency, as stated in his letter of acceptance

Gentlemen your platform which is also mine, assures me that Democracy is not henceforth to stand for one thing and Republicanism for another, but those terms are to mean in politics as they have always meant in the dictionary—substantially and the same thing

We might continue this array of Mr Greeley's self contradictions to an indefinite length. There is not a topic within the range of political discussion but he has taken both sides of it, and he has never made a change in his position that was not referable to some personal object which he desired to accomplish. His caprices have certainly proved remarkably convenient to say the least

The East Portland *Era* is no more. The cause of its death was want of support. In his valedictory the editor says

Nearly two years ago we issued the first number of the paper, and since that time it has been a continued bill of expense. We have expended considerable money, besides our time and labor to make it a success and have stood up under the burden when others would have succumbed to the pressure. But now after having given the experiment a fair trial and demonstrated that its success could not be achieved we do as any other sensible person would—abandon it * * * Then, again if we had allowed ourself to become a fraudulent tool to be swayed from the course we deemed right by every changing breeze we could have prospered there is no doubt of that fact. But we chose to succeed if we did at all in a proper manner and not through hush money and dishonor and though it may afford those who failed to purchase our utterances, some satisfaction to realize that our pride has resulted in our downfall, we have the consolation in feeling that our manhood is left us, and they have their money

Two newspaper men in Montana Territory have bet their offices, good will and all on the Congressional election in a certain district

The Press on the October Victory

The Republican journal at the other side of the Continent, unite in the opinion that the Presidential contest was practically ended with the elections in Pennsylvania and the other great States which pronounced against the Greeley coalition. The following extracts present a fair idea of the opinion of the Republican press upon the results of the October victory

[From the Boston Advertiser]

The Republican party has been beyond expectation successful in the critical series of elections which may be considered the Wilderness battles of the campaign. The Appomattox is certain and not far off. The Shiloh at Ohio for the settling the fight on this election as Mr Greeley prophesied it would—not the less surely settled it because the party which he hoped would triumph has been routed— and to conclude the prelusion in Mr Greeley's words. November will only re echo and reverberate the triumph. It is manifest at length that whatever opportunity the Cincinnati Convention may have had to determine the political fortunes of the country for the immediate future was destroyed when Fenton Greeley and Blair were invited to its deliberations. Anybody that beat Grant turns out to be a cry as weak as Senator Schurz declared it was unworthy. Not all the cant of word chopping and old cic nor the cant of hand shaking across the bloody chasm nor the boldest lying and defamation of character ever impressed to serve an intrigue nor the most shameless recantations ever volunteered to further personal ambition have availed to wheedle or capture the judgments of the people to whom the duty of caring for the safety of the Republic has been wisely committed

[From the Missouri Democrat]

The inevitable result of this morning's news is the election of General Grant by a majority in the electoral college much larger than he received four years ago. We very much doubt whether Mr Greeley will be a candidate in November. We have repeatedly stated that if he lost the day in the three great October States it would be the part of wisdom for the Democratic managers to withdraw him in favor of some candidate who would save the Democratic organization. This view will find concurrence in many of the ablest Democratic newspapers and by many of the ablest Democratic statesmen before many days. But whether he remains or withdraws will be immaterial as affecting the fate of the country or the final result of the Presidential contest. He is politically dead and he drags into his dishonorable grave with him Carl Schurz Lyman Trumbull Charles Sumner N P Banks and all their associates who have been engaged in the bad cause with him

[From the Toledo Blade]

The result of the election in Ohio Pennsylvania, and Indiana puts the quietus effectually upon the hopes of the Greeley coalition. The defeat of Greeley and Brown is as much a certainty as any thing future can be. The life has gone out of the corrupt and unprincipled device to defeat an honest and upright Republican Administration. Democrats have no longer any motive or interest to spend time and money in promoting a political scheme which represents no principle, and which can be of no benefit to them whatever. The accessions gained to the Democracy from the Liberals are mainly those who come in of rivalry and competition with their leaders, and have no interest in common with them beyond the spoils of office. No strength is brought to their party, and the coalition can be only a source of bitterness to them now and hereafter

Let us arm anew for the November contest. We work henceforth under brighter auspices, and with every inspiration belonging to a holy and triumphant cause. But let us not forget to work. Let us not cease to labor until the shout of triumph goes up in November over the vindication of a faithful and upright Administration by a people who can never cease to honor their tried and faithful public servants

[From the Albany Evening Journal]

We repeat that this matchless result settles the Presidency. It will exhilarate and inspire Republicans throughout the land and spread confusion and dismay among our adversaries. There is not a sane man in the country to day but believes that General Grant will be our next President. Mr Greeley—if, indeed, he is not altogether withdrawn—is to be the worst beaten candidate of years. But one thing remains to make the triumph perfect—we must carry New York both for Grant and Dix. It can be done, it can not be prevented if Republicans do their duty. Every thing is now in our favor. The omens are all of the best. Nothing can defeat us save our own over confidence or neglect. We can and must place the Empire State at the head of the column. Republicans of New York you have heard the voice of your brothers from Maine to Oregon from North Carolina to Ohio and Pennsylvania. Let it be your example and your inspiration!

[From the Pittsburg Dispatch]

Tuesday's victory decides the Presidential contest. With the magnificent majorities for the Republican ticket in Pennsylvania and Ohio and the certainty that General Grant will carry Indiana, the best hopes of the conspirators are dashed to the dust. There will be the usual cry of fraud fraud! and every effort used by the New York *Tribune* to keep afloat the tub in which Greeley is embarked. But it will be effort used in vain. There is no chance left for him now. Everywhere the Democrats will leave the sinking scows launched by the Cincinnati Baltimore Conventions. They have discovered by the elections in North Carolina Vermont Maine Pennsylvania Ohio Indiana and Nebraska that they have been deceived by the Liberals who promised them a great support from the Republican ranks. This support has not been and will not be forthcoming and loud and angry were the curses on the streets of Pittsburg Philadelphia, and New York, on Tuesday night over the deception practiced upon the Democratic party at Baltimore. From present indications, it is likely that in November the Democracy will vote for O'Conor the Straighout candidate or General Grant. These last elections have created a supreme disgust in their minds for the Liberals and they rightly feel that they have been sold by a bench ers and s rehoads and worn out political bummers to advance their interests alone

Tuesday's victory has its lesson. It teaches the Republicans of the country that it is only necessary for them to work in unison to accomplish their purpose in defending their principles against the aggression of wrong. United there is for them no such word as fail. They are now rid of the treacherous men who have so often spoiled the fruits of victory, and henceforth purified and strengthed by the purgation they can move forward without hindrance to the grand work which shall give to the country peace, progress, and prosperity

The Most Eloquent Man

The most eloquent of living orators is Representative Onstien of Baker county. The Salem *Mercury* of the 23d inst is witness to the truth of this statement for it says

The speech embodying the great eloquence and and most forcible argument of any that has been listened to on the floor of either House during the present session was heard yesterday in a speech by Mr Onstien, in support of a bill for the encouragement of sheep raising. The fact that the bill failed to pass in the first instance and was only carried on a reconsideration soon after Mr Onstien had made his speech is sufficient evidence of the ableness of the effort

All of which is well enough considered merely as an expression of the *Mercury's* opinion but this is an age that insists upon judging for itself. The literary critic who would satisfy the intellect and taste of a community of cultivated Oregonians must let his readers see the evidence upon which he bases his ideas. We quite agree with the critic of the *Mercury* and to prove the correctness of our judgment we append a verbatim report Mr Onstien's speech in the House on the bill for the appointment of a State Geologist. Mr Onstien said

Mr Speaker. Fortunately or unfortunately it has been my province to live in a mining country during the biggest part of my brief but eventful existence. Fifteen years ago I considered myself a Geologist. From my earliest infancy I have been possessed of an over mastering impulse to explore the bowels of the earth. But sir Mr Speaker the bowels of the earth are hard to get at and the man who would study the subterranean anatomy of the universe must, ah! be a bold and seeks like the prophet of old saying to r only "This is holy ground there also" [Prolonged applause] Sir for fifteen years I have consecrated myself to the investigation of the minerals that underlie the Pacific coast. I have traversed the coast with the most learned geologists of both this and the Old World and we have come to the conclusion—reluctantly but unanimously—that this 'ere kintry has rocks in it that you can't find in the text books

Sir the fact of the business is that the geology of this country differs entirely from that of any other. Geologists may be of use in the States where they write their books but, sir I assure you from my varied experience that when you attempt to read our geology by such an alpha-bet you will find that these books are to us a book of printed falsehoods and misrepresentations

Mr Speaker, I went, and the people who sent me here went a bill that will represent the variegated interests of the people of this State. Our geology is peculiar to itself—unwritten—nondescript. Therefore, standing here as exponents of geologic truth, we should be faithful to our high trust and defeat all such measures. We are here, if you will allow me sir, as geological Representatives. Let us then as did our fathers of old, pledge our lives our fortunes and our sacred honor that we will secure the geology of our State from the horde of educated miscreants who propose by this bill to immolate all freedom of thought!

Our Hillsboro correspondent writes under date of the 24th. The Circuit Court up till noon to day was grinding away. The Westfall case has again been postponed. I suppose this case is reserved for the opening of the new Court House. I understand that but one indictment was found by the grand jury

FRIDAY MORNING, OCTOBER 25, 1872

CITY.

WORK VS BREAD AND WATER.—The other morning, when it was gently intimated to the prisoners, now confined in the City Jail, that the streets and cross walks were in a deplorable condition, and that their assistance was necessary to clean the same, some four or five of these proud birds declared that they failed to "see it." The Chief of Police informed this number that there was no necessity for them to labor at all, if they did not so desire. There was an alternative left by the law. Those who would not work on the streets, must take the other horn of the dilemma, which horn was confinement in a dark cell, and dieting on nought but dry bread and wet water. These chaps concluded that bread and water goes, and are, as a matter of course, dwelling in dark cells and carrying into practical effect, Dr Bourne's style of diet. Before eight and forty hours more we venture these same fellows will be willing to work and take a little beef steak in theirs.

BODY FOUND.—The body of a man was found in the Columbia river, about three miles above Oak Point, on the 23d inst. It had apparently been in the water three or four weeks, and was much decomposed. The body was that of a heavy built man, about four feet and seven or eight inches in height, with black hair, and was dressed in black cassimere pants with two pockets behind, striped black and white wool overshirt, without coat or vest, lace shoes, a white handkerchief knotted loosely around his neck, and had a white handkerchief sticking out of his pants pocket. No marks of violence were visible. It is supposed to be the body of some one accidentally drowned. No papers were found upon his person to lead to his identification. The body was enclosed in a coffin and decently interred by the citizens of Oak Point.

GRANT BADGE.—We were shown yesterday the first Grant badge which had yet made an appearance in the city during the Presidential campaign. Withal the emblem is handsome and very appropriate. It is made of white metal, principally, and is about three inches in length. Where the badge is pinned to the coat is an eagle with out stretched pinions, from whose talons depends the emblem of Hope—the anchor. A neat piece of blue ribbon connects the eagle and a medallion one inch wide and one and a half inches long, in the center of which appears the picture of Grant. Underneath the medallion are the words raised in metal "The Boys in Blue." In design, material and workmanship, these badges far surpass any of the Greeley badges we have yet seen.

PORTLAND BRIDGE.—Information was received Wednesday that the Secretary of War had received the plans and specifications for the Portland Bridge and had referred them, with full instructions, to a board of officers in the Engineer Corps of the U. S. A. These gentlemen are Major Robert, stationed at Portland, and Majors Michler, Mendel and B. A. Alexander, all at present in San Francisco. It is supposed that these gentlemen will meet in a week or ten days in this city and proceed to act in the matter. It is the intention of the Company on the first notice given to them that the Board has accepted the plans, etc., to begin work.

LIGHTHOUSE WORK.—Work on the new lighthouse at Cape Foulweather is progressing as rapidly as circumstances will allow. Nearly all the materials necessary to the structure have arrived on the ground. Two experienced machinists are engaged in putting together the iron work. Should uncommon good weather be vouchsafed this fall and winter, the presumption is fair that the lighthouse will be completed by the first of January; if not, the structure will be finished early next spring on the resumption of good weather. The residence of the lighthouse keeper has been completed several weeks.

LIGHTENED.—The steamer *Emma Hayward* went down the river yesterday morning to the bark *Loch Dee*. This steamer will receive 100 tons of wheat from the hull of that vessel. This will lighten her up sufficiently to allow her to pass the low water where she has been aground for the last few days. The *Hayward* will tow the bark down to Astoria and place on board that portion of the cargo removed from the hold. The *Loch Dee* will receive the remainder of her load and then depart for sea.

MISSION SABBATH SCHOOL.—From the report of the Secretary of the Mission S S, organized over a year ago in the northern portion of the city and held in the North Portland schoolhouse, we learn that the number of teachers is six, and the number enrolled as scholars is seventy five with an average attendance the past quarter of about thirty; number in the infant class about forty, with an average attendance the past quarter of nearly twenty.

COLLECTING MATERIAL.—Mr. J. Mortimer Murphy returned last evening to this city from a short visit to Salem and other portions of the Willamette valley, where he has been collecting much valuable statistical information to be employed in the compilation of McCormick's State Directory. Mr. Murphy will start this morning for Eastern Oregon to collect materials from that part of the State. He will be absent about a month.

AT DUNGENESS.—A number of improvements are now being made at Point Dungeness. A boathouse is in process of construction, and also a barn for cattle, sheep, etc. A foundation will be built under the tower at that point, which the gradual encroachments of the sea have nearly washed away. A large, capacious cistern will be built soon for the use of persons residing at the Point.

INSPECTED.—The hulls and boilers of the steamers *Shoo Fly*, *Dayton* and *E. N Cooke* were inspected at Oregon city last Wednesday by Capt. Flanders and James Lotan. The hull and boiler of the steamer *Senator* were inspected yesterday at her wharf in this city. The inspections of each of the above steamers proved satisfactory to the officers, and certificates were renewed

A "TYPICAL" FEAST.—Eugene Semple, Esq, State Printer, gave the members of the press and the printers of the city of Salem, a grand dinner last night in the Chemeketa Hotel. The feast was all that the epicurean palate could desire, both in the solids and fluids, and the guests enjoyed themselves to the fullest extent in nectar and speaking.

GERMAN COLONY.—We learn from reliable authority that a colony of Germans, numbering nearly one hundred families, are settling up some land that has, until lately, been unoccupied, on the foothill's of the Cascade Mountains, eight miles from Foster's. Quite a number of the settlers are lately from the "Fadderland"

IN THE WATER.—Two small boys while engaged in playing on an old scow below the bone yard, yesterday, fell into the water. Fortunately the water was not deep, and the little adventuresome rascals managed to paddle ashore, thus sparing the hearts of their parents and depriving the undertaker of a job.

Samuel's Illustrated City Directory will be sent to every hotel in Oregon and Washington Territory, thereby gaining a circulation never before attained by any similar publication. Price of advertising, $15 a page. Each advertiser receives a copy of the work free, others can be procured for $1 50 a copy.

SPECIAL MEETING.—A special meeting of the Board of Delegates of the Portland Fire Department will be held at the Police Court Room to-morrow at 7.30 o'clock. The object of the meeting is to investigate the charges preferred by the Chief Engineer against Protection Engine Co No. 4.

ORGANIZED.—A Teachers' Institute for Clarke county, Washington Territory, was temporarily organized at Vancouver on Wednesday. A permanent organization was effected yesterday morning. We are unable to give the names of the officers as yet.

APPOINTED AGENT.—Rev David Rutledge, formerly connected with the Oregon M E Conference, and well known in this city, has lately been appointed Agent of the Freedman's Aid Society.

ESTABLISHED.—A new post office has recently been established at Tangent, Linn county, Oregon.

REACHED KALAMA.—The bark *Zouave* has reached Kalama and is discharging her iron.

The new town of Gaston, on the Westside Railway, contains one store, hotel, warehouse and blacksmith shop.

AMUSEMENTS.

A private ball was given last evening by a number of our Hebrew citizens, at Philharmonic Hall. The party proved a very successful and social affair.

A large number of the friends of Rev. Daniel Jones, were present last evening at the farewell benefit tendered that gentleman at the New Masonic Hall. The exercises were quite interesting to all, and really creditable to the participants. At the conclusion of the exercises, the large audience were invited to seat themselves at a most bountiful lunch which had been provided. The benefit tendered Mr. Jones was a most substantial testimonial of the esteem in which he is held by this community.

The "Lancashire Lass," or "A Party by the Name of Johnson," drew a full house last evening at Oro Fino Theatre. This excellent drama was rendered in fine style by the talented company, and won deserved applause. This evening the sterling Irish drama of "Temptation," or the 'Irish Emigrant." [From the Advocate]

The new Methodist Episcopal Church at Shedd's Station will be dedicated by Rev. G. W. Izer on the 3d of November, 1872.

On Tuesday last the teachers and pupils of the Portland Academy and Female Seminary made an excursion to the summit of Robinson's Hill, in honor of the birthday of Miss P Lovy, teacher of French and German in that institution. The balmy mountain air, the beautiful view of Portland and its surroundings, all combined to make the afternoon unusually interesting.

Undeveloped Vigor
The feeble and debilitated usually fancy they are in a more hopeless condition than they really are. The resources of nature are not easily exhausted. Even when strength and appetite fail, when the eyes are heavy and lustreless, the complexion pallid, the nerves tremulous, the body attenuated and the mind depressed there is generally a reserve of latent power behind such palpable such palpable evidences of weakness. Various modes of treatment are resorted to by physicians in the hope of developing and rendering available this store of sleeping vitality but the surest, and indeed the only thoroughly safe and reliable means of awakening the dormant energies of the system is a course of Hostetter's Stomach Bitters. Electricity shower baths, the flesh brush, sea bathing etc, may be well enough in their way as auxiliaries, but they do not reach the source of the evil. All physical debility proceeds either from a derangement of the functions of the assimilating, secretive and vital organs, or from a sluggish constitution. In either case, and also in cases where both causes exist, the Bitters will invariably produce an immediate and salutary change in the condition of the patient and eventually effect a complete cure. None of the dangerous alkaloids to often administered as tonics, can be otherwise than deleterious under such circumstances, and to give mercury is positively criminal. The direct effect of the great vegetable specific will be manifested in an improved appetite a more cheerful frame of mind, a gradual return of strength, an increase of flesh, and a healthier complexion. Meanwhile, however, the constitution of the feeble, will have been roused and renovated by the subtile elements of invigoration contained in the Bitters

PLANTATION BITTERS!
S. T.—1860—X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

An Act Relating to Elections.

Be it enacted by the Legislative Assembly of the State of Oregon, as follows:

Section 1. That at every election hereafter held in this State, or any incorporated town or city of this State, in pursuance of law, each elector shall, in full view, deliver to one of the Judges of Election a single ballot or piece of paper on which shall be written or printed the names of the persons voted for, with a proper designation of the office which he or they may be intended to fill.

Sec. 2. The Judge to whom any ticket may be delivered shall, upon the receipt thereof, pronounce, in an audible voice, the name of the elector and, if no objection shall be made to him, and the Judge is satisfied that the elector is legally qualified according to the Constitution and laws of the State to vote at the election, he shall immediately put the ticket in the box, without inspecting the names written or printed thereon, and the Clerks of Election shall enter the name of the elector and number in the poll books agreeably to the printed form in the seventeenth section of this Act, and the ballots, after being counted, shall be sealed up in a package and be delivered to the County Clerk—or in case of an election in any incorporated city or town, then to the officer or officers of such city or town authorized by law to canvass the votes—by one of the Judges or Clerks of Election, and said Clerk or city or town officer, as the case may be, shall deposit them in his office where they shall be safely kept for twelve months and the County Clerk, or city or town officer, as the case may be, shall not allow the same to be inspected, unless in case of contested elections, or unless the same becomes necessary to be used in evidence, and then only by order of the proper Court.

Sec. 3. The Judges of Election, in determining the residence of persons offering to vote, shall be governed by the following rules, so far as the same may be applicable: First—That places shall be considered and held to be the residence of a person in which his habitation is fixed, and to which, whenever he is absent, he has the intention of returning. Second—A person shall not be considered or held to have lost his residence who shall leave his home and go into another State or Territory, or county of this State, for a temporary purpose only, with an intention of returning. Third—A person shall not be considered or held to have gained a residence in any county of this State in which he shall come for temporary purposes merely, without the intention of making said county his home, but with the intention of leaving the same when he shall have accomplished the business that brought him into it. Fourth—If a person remove to any other State, or to any of the Territories, with intention of making it his permanent residence, he shall be considered and held to have lost his residence in this State. Fifth—The place where a married man's family resides shall be considered and held to be his residence. Sixth—If a person shall go from this State into any other State or Territory and there exercise the right of suffrage, he shall be considered and held to have lost his residence in this State.

Sec. 4. If the person offering to vote is challenged as unqualified by one of the Judges of Election or by any elector, one of the Judges shall administer to him the following oath or affirmation: "You do solemnly swear (or affirm) that you will fully and truly answer all such questions as shall be put to you touching your place of residence and qualifications of an elector at this election." *First*, If the person be challenged as unqualified on the ground that he is not a citizen, one of the Judges shall propound to him the following questions: 1. Are you a citizen of the United States? 2. Are you a native or naturalized citizen, and if neither, have you declared your intention to become a citizen, conformably to the laws of the United States, on the subject of naturalization? and if so, when? *Second*, If the person be challenged as unqualified on the ground that he has not resided in this state for six months immediately preceding the election, one of the judges shall put the following questions: 1. Have you resided in this State for six months immediately preceding this election? 2. Have you been absent from this State within the six months immediately preceding this election? 3. If so, when you left, was it for a temporary purpose, with the design of returning, or did you intend to remain away? 4. Did you, while absent, look upon and regard this State as your home? 5. Did you, while absent, vote in any other State or Territory? *Third*, If the person is challenged on the ground that he is not a resident of the county or precinct where he offers to vote, one of the Judges shall put the following questions: 1. When did you come in this county and precinct? 2. When you came into this county and precinct did you come for a temporary purpose merely, or for the purpose of making it your home? 3. Have you been for the last ninety days an actual resident of this county? *Fourth*, If the person be challenged as unqualified on the ground that he is not twenty-one years of age, one of the judges shall put to him the following question: 1. Are you twenty-one years of age, to the best of your knowledge and belief? The judges of election, or one of them, shall put all such other questions to the person challenged, under the respective heads aforesaid as may be necessary to test his qualifications as an elector at that election.

Sec. 5. If the person challenged as aforesaid shall refuse to answer fully any questions which shall be put to him as aforesaid, the judges shall reject his vote.

Sec. 6. If the challenge be not withdrawn after the person offering to vote shall have answered the questions put to him as aforesaid, one of the Judges of election shall administer the following oath: "You do solemnly swear (or affirm) that you are a citizen of the United States (or have declared your intention to become such one year next preceding this election), that you are of the age of twenty-one years; that you have been for the last ninety days an actual resident of this Judicial, Senatorial or Representative District (as the case may be), and that you now reside in this precinct, and that you have not voted at this election."

Sec. 7. Whenever any person's vote shall be received after having taken the oath prescribed by section 6 of this act, it shall be the duty of the Clerk of Election to write on the poll-book at the end of such person's name, the word "sworn."

Sec. 8. It shall be the duty of each Judge of Election to challenge any person offering to vote, whom he shall know or suspect not to be qualified as an elector.

Sec. 9. It shall be the duty of the Judges of Election, or of one of them, immediately before proclamation is made of the opening of the polls, to open the ballot-boxes in the presence of the people then assembled, and turn them upside down, so as to empty them of everything that may be in them, and then lock them securely, and they shall not be reopened until for the purpose of counting the ballots therein at the close of election.

Sec. 10. The Judges of Election shall, if requested, permit the respective candidates, or one or more, not exceeding three, of their friends, to be present in the room, where the Judges are during the time of receiving and counting the votes.

Sec. 11. At the close of the polls the poll books shall be signed by the Judges and attested by the Clerks, and the names therein contained shall be counted and the number set down at the foot of the poll books, in manner hereinafter provided in the form of poll-books.

Sec. 12. After the poll-books are signed in the manner hereinafter prescribed in the form of poll books, the ballot-boxes shall be opened and the tickets taken out, one at a time, by one of the Judges, who shall read distinctly while the ticket remains in his hand, the name or names written or printed thereon; also the office that is intended to be filled by such person voted for, then deliver it to the second Judge who shall examine the same who shall pass it to the third Judge, who shall string it on a strong thread and carefully preserve the same; and the same method shall be observed in respect to each of the tickets in the ballot-box, until the number of tickets taken out of the ballot box is equal to the number of names upon the poll-books.

Sec. 13. The Clerks shall enter in a column under the names of the persons voted for, as hereinafter provided in the form of the poll-books, all the votes read by the Judges.

Sec. 14. If two or more ballots shall be found so folded together as to present the appearance of a single ballot, they shall be laid aside until the count of the votes is completed, and if, upon a comparison of the count and appearance of such ballot, a majority of the Judges shall be of the opinion that ballots thus folded together were voted by one elector, they shall be excluded from the count.

Sec. 15. If the ballot should be found to contain a greater number of names for any officer than the number of persons required to fill that office, it shall be considered fraudulent as to the whole of the names designated to fill such office, but no further.

Sec. 16. After the examination of the ballots shall be completed, the number of votes for each person shall be enumerated under the inspection of the judges, and set down as hereinafter provided in the form of the poll books, and publicly proclaimed to the people present.

Sec. 17. The following shall be the form of the poll books to be kept by the judges and clerks of election under this act:

A few Coin Statistics.

Accurate statistics on any subject are not to be obtained without rigid and exact accounts, and even then, when the figures are large, errors are only too apt to creep in. On this account, many persons are slow to put faith in tabulated statements. Especially are tables of estimated items in the greatest danger of being wrong, and no one should be in haste to take them upon trust. They have their place, but every one should carefully exercise his own judgment in regard to them, if he would not be misled.

A series of estimates was published some time ago—upon what is regarded by many as good authority—of the amount of coin in circulation at various times for the last three hundred and fifty years. This made the sum in Europe, at the time of the discovery of America, to be only $170,000,000, and that in 1866, in Europe and America together, $5,162,000,000. The first amount seems very small, and the last seems certainly very large. We may well ask where it all is, if there exists anything like that amount. Many, however, who accept the theory of such an increase, and who also believe that the mining resources of the chief regions which produce gold and silver have hardly begun to be developed, and the supply will be hereafter much more rapidly augmented, yet tenaciously hold to these metals as the standard of values. But, we ask, if the past increase of coin has been at any such rate, is it any wonder that its purchasing power has so materially diminished? And if the future increase is to be so much more accelerated, what will be the prices demanded a century hence for all the articles we have to buy, if gold be retained as a currency? Surely business men are not wrong in beginning to ask for a standard or measure of value less liable to such enormous depreciation.

A few of the estimates given in the statement we have referred to were: $170,000,000 as the whole stock of coin in Europe in 1492. The net increase of the next one hundred and eight years, after allowing for exportation to Asia, for wear, loss, and manufacture of ornaments, is put at $480,000,000, making the stock at the beginning of the seventeenth century $650,000,000. The net gain of that century, after allowing about one-half the production for exportation to Asia, for wear, loss, and the ornamental arts, is reckoned at $837,000,000, making the stock at the beginning of the eighteenth century $1,187,000,000. The production of this century is estimated at $5,000,000,000, the exportation to Asia at $400,000,000; the amount used for ornament at $800,000,000, the wear and loss at $600,000,000; altogether, $1,800,000,000, leaving as the net gain, $3,200,000,000, and making a total stock at the end of century of $3,687,000,000. The production of the first twenty-five years of the nineteenth century is estimated at $750,000,000; the three items of ornament, wear and loss, and the exportation, at $500,000,000 leaving $250,000,000 as the net gain, and giving $3,937,000,000 as the total stock in 1825. The production from 1825 to 1850 is reckoned at $1,200,000,000, exportation, wear and loss, and ornament at $725,000,000, leaving a gain of $475,000,000, and a total stock in 1850 of $4,412,000,000. The production of the next sixteen years is estimated at $2,500,000,000, the exportation to Asia, for wear and ornamental purposes, $1,750,000,000, leaving a net gain of $750,000,000, and making a total stock of coin in Europe and America in 1866 of $5,162,000,000. The production of those sixteen years was thus nearly fifteen times as much as the whole stock on hand in 1492; almost four times as much as that on hand at the beginning of the seventeenth century; more than fifty per cent. greater than that at the beginning of the eighteenth, and about five-sevenths of that on hand at the beginning of the nineteenth century. Probably well-nigh half of the production of these sixteen years came from the United States; Australia standing next to the United States in the amount of gold and silver produced, and Russia third upon the list, though far behind the other two.

It ought to be added that these last figures in regard to the production of gold and silver for the more recent periods cannot be very far from the truth. A part of them at least are derived from somewhat accurate accounts kept by Government, as in the case of Australia and the United States. The President's message a few years ago placed the production of gold and silver in the United States from 1848 to 1857 inclusive at $1,174,000,000, reducing somewhat, in his desire not to overstate the matter, the figures of the special commissioner of the Treasury, who, in his communication to the Secretary, estimated it at $1,225,000,000. The annual product of several of the countries yielding the largest amount of gold and silver has been stated to be:—The United States, about seventy-two million dollars; Australia, thirty-three million two hundred thousand; Russia, fifteen million two hundred thousand; Mexico, Central and South America, and the East Indies (including Central Asia,) each about ten million; all of Europe, besides Russia, about the same amount; New Zealand, about six million; British Possessions, about three millions, and Africa one million. Australia did not begin to produce gold till 1851, when its yield was only about three million dollars; but the next year, 1852, its product showed the almost unprecedented advance to fifty-four and a half million dollars; and the following year, 1853, to sixty-three millions. Since this time it has declined, averaging forty to fifty millions. The production of California in 1853 somewhat exceeded sixty millions of dollars, since which time it has also declined, and the two in succeeding years have produced about equal amounts.

FINANCE AND COMMERCE.

THURSDAY EVENING, Oct. 21, 1872.

Gold in New York to-day, 114.

Portland Legal Tender rates, 87c buying; 88c selling.

Average California Wheat in Liverpool, 12s 10d; Club Wheat, 13s 6d.

In making up our review for the week ending this evening, there are but few changes to note in our local Money market. The stringency existing heretofore still continues, though there are indications that a relaxation of this tightness may be experienced ere long. But we wait events, and trust that the predictions made by those claiming foresight in this matter may be more than realized at an early day.

A correspondent at Walla Walla says: "The farmers this year were very successful with their crops, harvesting large yields of Wheat and Oats and considerable Corn. There is no market for the grain, the highest cash prices being, for Wheat, 40c, and Oats 1½c ℔ lb, and no sellers. Farmers are confident of getting better prices in the spring, which is a very fair supposition, and in consequence are holding their grain."

Our home Wheat market continues dull, though the receipts of the week have been quite liberal, and present indications are that enough will soon be in the hands of purchasers to load all the vessels likely to be here by the 1st of January, 1873. We received the following by telegraph, from San Francisco, to-day: ...

The receipts of Wheat here from July 10th to last night aggregate 4 586,633 sks. The price yesterday was $1 57 @1 60 ℔ cental against $1 60@1 65 on the 10th of July last. Much has been said about alleged misquotations of Wheat in the Liverpool market by the Associated Press here. A circular of Henry Jessup & Sons, of Liverpool, Wheat dealers, dated October 1st, quotes Wheat as follows: "*Wheat*—White California Club, 13s 0d@14s 8d; White California average, 13s 3d@13s 6d." These are the exact quotations at Liverpool for that date. The *Mark Lane Express*, a London paper, evidently using Liverpool circulars, quotes at the same date, for Liverpool, "California White Wheat, 13s3d@14s," thus giving the extremes of Average and Club. The telegram of the Associated Press, which furnishes the grain dealers, Merchants' Exchange and newspapers with quotations daily, at above date quoted California Wheat in Liverpool at 12s 3d@13s 4d. Thus out of 200,000 tons of Wheat only 1,000 is Club. The New York *Financial Circular* always gives the price per cable from Liverpool as reported to New York Corn Exchange and these prices, given in its issue for October 5th (page 452) are Oct 1, 13s 3d, the same as received in San Francisco. It seems there is no real cause for the complaints made of the Wheat reports as published here.

Flour is in full supply, and while the demand for home consumption has been good there are some tokens of a weakening in prices. Some brands are quoted at 12½c per sack lower in our retail market, though the jobbers meanwhile claim that no reason for any decline exists, unless it be indicated by late telegraphic advices concerning the raw material, Wheat. Shipments during the week have been few, though some orders from the North are in hand. The small quantities shipped however, when compared with the supply which could be furnished by our mills, or the liberal receipts of wheat which could readily be obtained makes but little diminution in stocks. Most of our mills are running on short time, owing to this limited demand for outside consumption.

Oats are still coming forward in quantities sufficient for home consumption, which creates the principal demand at present. With sacks included, rates are from $1 30 to $1 40 per 100 lbs. A little later in the season and we incline to the opinion that better prices will prevail for this cereal.

Our retailers are in full receipt of nearly all articles in season.

Butter is one commodity in good demand, and prices tend to appreciation, 35c to 37½c being the prevailing rates according to quality and style of packing.

Eggs are plentier than last week, and seem to shade off a little.

ADVERTISING

Has created many a new business;
Has enlarged many an old business;
Has revived many a dull business;
Has rescued many a lost business;
Has saved many a failing business;
Has preserved many a large business;
And insures success in any business.

GIRARD'S SECRET.—Stephen Girard used to say in his old age "I have always considered advertising liberally and long to be the great medium of success in business, and the prelude to wealth. And I have made it an invariable rule to advertise in dull times as well as the busiest; long experience having taught me that money thus spent is well laid out, as by continually keeping my business before the public it has secured many sales that I otherwise would have lost."

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the faces, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of th's complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco, Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*. jy6d&w
